Terry Young Photography

P.O. Box 54911
Lexington, KY. 40555-4911
(859) 264-8579

Changes within this industry have prompted me to offer *CANDID* (from outside the ring) photography as an additional service at most shows. It is important to be aware that a *CANDID* photograph is taken with no flash (available light) and in most cases (depending upon ring lighting) may produce enlargements with slightly more grain, motion blur and or minor color variations, this will only be evident when photographed in covered or indoor rings and will not be the case with photos shot outside. Images taken from in-ring (with flash) will produce sharp, motion blur free images color corrected to industry standards. Please consider these differences when ordering your photos.

Also please be aware that the proofs at this show (both on screen and or in print) are just that *a proof!* The finished photo will be color corrected and cropped . My photos will not fade and are protected with a clear laminate coating.

"Farm Shoots Available" InternetPrices "Farm shoots available"
